Cole & Son®

COLOUR • PATTERN • EXCEPTIONAL WALLPAPERS & FABRICS

Innovative, intelligent, artistic design is founded upon a strong heritage of craftsmanship. The Design House of Cole & Son has been creating original and exceptional wallcoverings since 1875 in London, an area renowned for its artisanal production and hand block printing.

Today, the Cole & Son archive is a beautiful and inspiring chronicle of artistic styles and expressions spanning the 18th Century to modern day. Consisting of approximately 2,000 block print designs, 500 screen print patterns and a vast quantity of original drawings and wallpapers. The archive and log of commissions attest to some of the most important decorating schemes of the 19th and 20th Centuries; from stately homes such as Chatsworth House, Blickling Hall and Audley End to Buckingham Palace, Kensington Palace, Windsor Castle and the wallpaper designs of A.W. Pugin featured in the Palace of Westminster – a collection which is still faithfully maintained today.

On occasion, this extensive archive is a source of inspiration for new designs within collections. Elements from historic prints and patterns are carefully selected, adapted and coloured by the Cole & Son Design House artists and printed by craftsmen to produce wallpapers faithful to the character of the original document, yet contemporary in feel.

With a commitment and passion for design excellence, the Design House of Cole & Son is dedicated to creating beautifully detailed wallcoverings and fabrics; combining colour and pattern to create unique, distinctive and inviting interiors.

BONSAI GARDEN

The Kyoto Bonsai Garden has been the key inspiration for this chinoiserie design. The curation of **Bonsai Garden** showcases a selection of prominent bonsai trees – each hand-picked tree carries a story of their own that mirrors the craft of bonsai masters. Welcome the art of bonsai to your home with the cultivated ornamental tree that symbolise 'peace, balance, harmony, and luck'. The balanced colour palette within the chinoiserie design invites you to explore the dramatic skyline of Kyoto. Slowly walk from tree to tree and discover bonsais with a heritage of 350 years.

From the design *Bonsai Garden*, the fruit tree Kaki Persimmon was selected to become a stand-alone design because of the beautiful story behind the delicate tree – that bears the ornate persimmon fruit, also known as ‘the fruit of the gods.’

Enjoy the soft colour palette painted in Japanese watercolour. Each colour variation takes you through the magical colours of Japan throughout the seasons. This miniature tree creates an elegant and distinctive repeat that adds magical quirk to any space.

MEDITATION STONE

Meditation Stone was derived from one of the most prominent rock gardens in Kyoto. The construction of the garden is still unknown, there are several speculations of the architect behind the magical rock garden. What inspired the Cole & Son artists to create *Meditation Stone* was the flow and movements to create a harmonised space. This rock formation design will float around your room, creating a textured feeling on your walls, this is a perfect wallpaper to pair with *Kaki Persimmon* or *Bonsai Garden*, as well as a stand-alone design.

Inspired by the visionary fashion designer, Rei Kawakubo*, the hand-painted Cole & Son design is an interpretation of the designer's work, a perfect mix of traditions old and new. The interior and fashion world collide bringing avant-garde movement and colour to your space.

If you look closely within the abstract design, you will see the movement of the beautiful human body, but every time you look at the design it is up to the viewer to discover new shapes and forms.

**Rei Kawakubo, founder of Comme des Garçons -*

The creative direction and vision of this design is an admiration to honour the designers work, this is not a collaboration.

JAPANESE CHINOISERIE

A breathtaking chinoiserie that is a culmination of several sceneries resonating from the most beautiful gardens of Japan. Let the calligraphy strokes guide you through the landscape. Immerse yourself through hills, trees, flowers, and the flowing water that cascades throughout the panel. Experience the charming blossoms of the iconic Sakura tree that poetically and aesthetically bloom in the natural landscape.

Japanese Chinoiserie is available in six colourways on traditional bases, as well as one colourway offered on a Natural Grasscloth. The use of natural materials in Japanese culture links back to ancient times, exemplifying the incredible craftsmanship with a 'stitch by stitch' methodology. *Japanese Chinoiserie* is painted in a traditional style, yet it gives a modern and timeless feel.

JAPANESE WOODS

Using Japanese techniques and charcoal, the Cole & Son artists created croquis for the *Japanese Woods* design. It is a modern interpretation of a traditional craft, known as Daisugi – a Japanese sustainable mission to preserve a whole forest in one tree.

Within each pruned tree you have a whole forest.

The striking *Japanese Woods* gives a contemporary feel to any room, providing the illusion of an eternal forest. This graphic and monochromatic repeat provides depth and perspective to the interior space.

Inspired by vintage embroidered Kimonos and traditional Japanese chinoiseries dating back to the 17th Century, **Scenic Flora** was created. The design is built on a theatrical structure, allowing you to enjoy the design from different perspectives. **Scenic Flora** presents a myriad of interpretations. Adorn your walls with the romantic and luxurious **Scenic Flora**, an elegant landscape of Japanese wildflowers.

Behind the breathtaking wildflowers is a romantic story of a tender love. Kiku and Sakura, named after the flowers of Japan.

Kiku would pass an enamouring field of wildflowers every day while walking home from his mastery, gifting his beloved Sakura a daily flower. The blossoming field of wildflowers on the chinoiserie showcases the careful selection that Kiku made to honour Sakura. **Scenic Flora** remains a jewel of the room to symbolise an eternal & delicate love story.

LILY LOTUS

The Ryoanji Temple cultivated the inspiration behind *Lily Lotus*. The beautiful water and ponds in the gardens of Kyoto are filled with these elevated flowers, setting the scene of the water landscape. The Cole & Son artists have painted an interpretation of the Water Lilies, identifiable with a floral choreography. Water Lilies are said to bring 'peace,' and 'enlightenment', the design *Lily Lotus* will uplift your space as the florals intertwine and dance across the walls.

Connected to *Pavilion* and *Mountainscape*, *Tile Toile* depicts key scenes that were inspired by the beautiful landscapes of Silver Pavilion in Kyoto. The tile like structure of the design mirrors traditional Japanese wall art and flirts with a Toile de Jouy. Each tile depicts a still life scene, however when viewed as one, it tells a harmonious story of the historical gardens.

HOW MUCH PASTE WILL I NEED?

We offer 3 different tub sizes; 2.5 kilos, 5 kilos and 10 kilos. We recommend 1 kilo of paste per standard roll of wallpaper. E.g. an order for 5 rolls of wallpaper would require a 5 kilo tub. Additional paste will be required where wide width wallpapers are used.

HOW DO I CALCULATE THE NUMBER OF ROLLS REQUIRED?

Ask your decorator to calculate the number of rolls required, use our roll estimator on your selected product's web page, or follow the instructions below. Please note, all panel designs are straight match from one set to the next and can be repeated as many times as required.

PART 1

Measure the width of the wall and divide by the width of your selected wallpaper. This gives you the number of 'drops' required. This number should always be rounded up.

PART 2

Then measure the height of the wall. Divide the length of the roll of your selected wallpaper (standard rolls are 10m long) by the height of your wall. This gives you the number of drops you will get per roll. Divide the number of drops required (part 1), by the number of drops per roll (part 2), equates to the number of rolls required. If you have a wallpaper that is marked as 'half drop', or has a large pattern repeat, add the size of the pattern repeat to the height of your wall to account for the additional wallpaper required.

If you have any unanswered questions, please contact client.service@cole-and-son.com.

WHERE CAN I FIND HANGING INSTRUCTIONS?

Instructions are included with each roll of wallpaper. Full hanging instructions can be found at the bottom of our home page, direct link: <https://cole-and-son.com/hanging-instructions/>.

HOW CAN I OBTAIN A FIRE CERTIFICATE?

Please contact client.service@cole-and-son.com with the product code you require certification for.

WHAT IS YOUR RETURNS POLICY?

If an item is faulty or a processing error has been made and Cole & Son is at fault, our Client Service team will collect the faulty/incorrect goods and arrange a replacement free of charge. It will be the responsibility of the customer to arrange the return of the goods to Cole & Son, Lifford House, 199 Eade Road, London
